

To Anya,

Thank you for your wonderful letter, it was so lovely to read and I would like to share this on our school website with all of our school friends. I am pleased to read you are accessing the work that we are uploading to the website or sending out to our pupils. I know you may be disappointed that SATS were cancelled but please be reassured that all of your hard work will be reflected in the teacher assessments that we share with you all, you deserve this.

I will ensure that your letter is seen by all of the staff as you are right they all need to stay safe and keep their families safe. I have three older boys who have left school and a young daughter who is 15, my daughter has had to self-isolate with her grandparents as they are older, I really miss her but I know we are all trying to do the right things to keep our families safe and as I am not at home all of the time for her this was a decision we had to make. We continue to keep school open if it is needed as we keep our key worker children cared for so they can continue to do their fantastic jobs, I used to be a nurse and I can only imagine how hard this work is at the moment.

I am so pleased you feel the school is also your home and we look forward to you all coming back in. Christ at the Centre, Children at the Heart.

Stay safe,

From Mrs Graham.
